PROFESSIONAL SUMMARY

Full-stack developer with 3+ years of experience building scalable, high-performance web applications using React.js, Node.js, and modern JavaScript frameworks. Skilled in RESTful API design, database architecture, and AI-assisted development workflows. Proven track record delivering production-ready platforms across e-commerce, logistics, and academic domains, from prototype through deployment.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Futric Nov 2025 – Present

- Build and maintain full-stack web applications using modern JavaScript frameworks.
- Develop scalable backend services and RESTful APIs powering client platforms, including Sawa (sawa.xapis.com) and Dliv (dliv.me).

AI Prompt Engineer | Optimiza — Amman, Jordan Jul 2024 – Nov 2025

- Designed, developed, and tested complex prompts to optimize AI model performance for production use.
- Refactored AI-generated code to improve performance, readability, and maintainability.

Frontend Developer | Glyphsmarketing — Georgia, USA (Remote) Oct 2023 – May 2024

- Built visually appealing, responsive web applications, including Arab Georgia (arab-georgia.com), a platform connecting Arab communities across the US.
- Transformed design prototypes into functional, optimized code and implemented new features.

Full Stack Developer | The Larn Book Gate — Amman, Jordan Mar 2023 – Oct 2023

- Built dynamic, responsive UIs with React.js and RESTful APIs using Node.js/Express.js for thelearnbook.com, an academic portal hosting thousands of books and journals.
- Designed and optimized relational and NoSQL databases for scalability.
